The **BRAL, Biennial of Resilience, Art & Landscape** was born as the result of the fruitful multi-year collaboration between *LWCircus-Onlus* and the *Asinara Natural Park*, carried forward since 2019 with the first *AsinaraLab019* and consecrated by participation in the *17th Venice Architecture Biennale* (2021) and the *12th Barcelona Landscape Biennial* (2023), with which activities have been organized for years to connect the two architectural and landscape disciplines and to stimulate a debate on the role of art and artistic languages in the context of the valorisation of cultural heritage, cultural landscapes and social inclusion.

The activities of **BRAL024** include the **AsinaraLab024 operative workshop**, from **26th of September to 4th of October**, involving participation of worldwide practitioners, multimedia artists, photographers and performers, for the creation of site-specific works for the enhancement of the *Asinara National Park* and, as closing event, on **5th of October**, the 4th edition of **LWConvivium** international symposium, focused on the key themes of art, resilience, sustainability and social inclusion.
